Help available in an emergency

The Australian Government provides support to providers, services and families in the event of a local emergency.

[Learn more about preparing for an emergency, what help is available when one occurs, and the support available to help you recover.](#)

Have a say on compliance resources

We are seeking your views on our existing [compliance resources](#), and future resources.

If you would like to help shape the design and delivery of compliance resources, please [complete this short ten question survey](#).

The survey closes 6 May.

Free mental health training

We are working with [Everymind](#) to help promote the mental health of small business owners across Australia.

[Ahead for Business](#) is a program designed specifically with the mental health of small business owners in mind, and Everymind has just launched **free Business Wellbeing training**.

The online training helps small business owners develop knowledge and skills around the areas of mental health, stigma, effective communication, and promoting mental health in your business.

The four modules take about 10 to 15 minutes each to complete and can be done at any time.

All participants are asked to complete a short pre-training and post-training survey, which take about five to 10 minutes each.

The program is available until 30 May.
